

# Blessing the Nations

GOING INTO ALL THE WORLD MINISTRIES

September, 2018

## “In You All Nations Shall Be Blessed”

Today we hosted a team from a church that have been vital to the life of House of Destiny. Actually, they founded House of Destiny. The majority of the people in the team had never been here before. We poured our heart out to them as they asked questions and they showered the children with love.

As Jay and I were talking with this team, I found myself explaining how some of our team members are like family to our children. Blanca and Vivi have been loving the children of House of Destiny for almost 10 years. Blanca joined us when she was 14 years-old in 2008, with very little education. Now, at 24 years-old she has decided to go back to school and is now graduating 6<sup>th</sup> grade. We are so happy to be able to help her accomplish this dream. Vivi has been with us since 2009, and came with some post high school education. After working as our nanny for 10 years she has a strong

desire to go to university on the weekends and get her degree to be a social worker. But not just any social worker, she wants to be our social worker! We are so happy to be able to sponsor her. Vivi and Blanca are like older sisters or aunts to our children. You, the partners of this ministry, make this possible. Thank you.

Iris' hugs are so nice. What a change love can make.

The team from Florida included a doctor and a nurse who gave all of our children and our support team

**and** their families consultations, checkups and medicine. There is a healthcare system here in Guatemala, but it's not very good. For example; a nanny took her 2-year-old daughter to a government-run emergency room last week for a high fever and breathing problems. Their solution was an appointment for three weeks later. It wasn't a very good solution for a worried mother. We were happy to have this opportunity to have a medical team here and to get

this sick child the medication that was needed. By the way, this is medication that you have provided. This week we were able to do something to improve the lives of almost everyone on our team and we thank you for your part in this! Because you bless us, we are able to buy groceries and bless our employees bimonthly. You have also helped our staff through financial and medical difficulties. We all thank you.

While sharing our home's past and present situations--which leads into future plans, I heard myself say things that I have never said before. "Our hearts are here, they are with these

Darlin got second place in a contest at school. We are so proud of her and the young lady she is becoming.

Eswin got a new bike too for his 6th birthday

children and with their futures. We are not just here for as long as is convenient, not here until “God calls us back to the US” or until we retire. We are here. We don’t ever see ourselves leaving.” We know the solution for the problems in this corrupt developing country is a wide spread move of the Holy Spirit. The solution is God. We plan to do all we can to bring heaven to Guatemala. The effects of centuries of darkness and despair permeates this country BUT the effect of the God is changing our part of Guatemala.

We minister not only to the children of House of Destiny but to the employees and their families, neighboring missionaries and missionaries around the world. We are grateful for your prayer support, financial support and your love. YOU enable us to change the lives of so many and we are so very grateful. We pray for you and your families constantly and believe as you bless us and ours that every need of your family is blessed.

We love you.

Dilan got a whole lot for his birthday and a fruity cake

Real religion, the kind that passes muster before God the Father, is this: Reach out to the homeless and loveless in their plight, and guard against corruption from the godless world.

**James 1:27**

Estiven received a new bicycle for his birthday last month.

A family day at school.
